

Pay Monthly Tyres Fitment Policy

Pay Monthly Tyres contracts cover the tyres fitted on live axles and full size spare tyres. For the avoidance of any doubt; tyre inflation kits, tyre foam, space saver tyres and TPMS Sensors / Stem Kits are not covered or included.

The Tyre Services shall include without limitation the:

- replacement of worn-out tyres due to fair use.
- repair of punctures.
- replacement of tyres damaged accidentally (vandalism or suspected malicious damage subject to approval);
- balancing of wheel and tyre assemblies.
- replacement of tyre valves cap and core (TPMS sensor / stem kits are not included);
- environmentally acceptable disposal of tyre casings and other displaced parts;

Tyres shall be considered to be worn out and changed when the remaining tread is at or below the Pay Monthly Tyres' set limit of two (2) mm of tread remaining across the central seventy five (75) % of the tread width around the entire circumference for the tyre or where the application of any relevant law would render the tyre unserviceable.

Ninety eight (98) % of tyres replaced shall be Premium Branded Tyres. The remaining two (2) % fitment can be midrange tyres where premium tyres are unavailable in that location, at that time. Every reasonable effort will be made to fit a premium tyre.

Tyres fitted or repaired shall meet the minimum safety and specification standards as defined by the ECE regulation 30 or ECE regulation 54 for all European operations and any future regulation that may apply.

Guarantees

Tyres

Lifetime Mileage Guarantee

All new tyres are covered against manufacturing defects throughout the legal life of the tyre. Tyres will be returned to the manufacturer for inspection.

Service & MOT

Kwik Fit provides Vehicle Servicing and is licensed by the DVSA to provide MOT testing

Service components and any other mechanical parts, including starters and alternators are guaranteed for 12 months or 12,000 miles, whichever comes first.
